

INNLINe IP™ BENEFITS

HOSPITALITY-SPECIFIC From the initial stages of development through the release of our products, hospitality-specific needs are our core focus. InnLine's lodging-specific functionality works to streamline many of your property's day-to-day operations.

RELIABILITY InnLine IP™ offers the best software and hardware, designed to perform reliably 24-hours-a-day. It's so dependable and seamless, you will forget it's there.

TRUSTED & ENDORSED With over 20 years of hospitality voice messaging experience, Innovation Technologies' InnLine IP™ voicemail has set the standard as the highest quality hospitality voice messaging system available. Continually at the forefront, Innovation pioneered features like the DID server, guest-programmable wake-up calls, and more. InnLine's continued reliability and hospitality-specific feature-set has led it to be endorsed by all major hotel chains.

EXTENSIVE FEATURE-SET InnLine IP™ offers a complete set of features. Hospitality-specific features such as automated wake-up calls, automated guest services, guest voicemail

EASY TO USE Both guests and staff will appreciate that InnLine IP™ is easy to use and convenient. Guest voicemail tutorials guide guests through using their mailbox. Furthermore, administration is simple.

INTEGRATION InnLine IP™ seamlessly integrates with all major property management and PBX systems. Guest mailboxes are automatically activated and deactivated on check-in and check-out. Additionally, the guest's mailbox and messages are automatically moved when a room change message is received from the PMS.

FLEXIBILITY InnLine IP™ provides guests and hotel staff with convenient, flexible features that allow hotel guests and staff to take control of how and when they communicate. Furthermore, InnLine IP™ will accommodate the addition of InnCharge™ Call Accounting and PrivateLine™ DID Server.

GUEST VOICE MESSAGING eliminates the need for message taking and delivery, freeing up valuable staff time.

STAFF VOICE MESSAGING creates more efficient staff communications. Special instructions, work schedules and maintenance orders can all be communicated through InnLine™ voicemail.

AUTOMATED ATTENDANT transfers outside calls directly to departments or individuals while your operator remains available.

AUTOMATED GUEST SERVICES provides information to your guests at the touch of a button.

WAKE-UP CALLS are guest-programmable and handled automatically by the system. Additionally, InnLine™ offers wake-up call reports and missed wake-up call alarms.

INNLINER IP™

VOICE MESSAGING FOR THE HOSPITALITY & LODGING INDUSTRIES

Since 1990, InnLine IP™ has been the preferred voice messaging solution for lodging properties of all sizes. InnLine™ voice messaging systems have been specifically designed to meet the needs of the lodging industry.

InnLine IP™ interfaces seamlessly with your existing equipment, providing a cost-effective solution to improving customer service. Reducing operator console traffic frees up staff time, allowing for a more productive work environment.

By combining voicemail, automated attendant and hospitality-specific features into one system, InnLine IP™ goes beyond simple messaging and turns the guest room phone into a complete information center.

- INTEGRATES WITH ALL MAJOR LODGING PBX & PMS SYSTEMS
- AUTOMATED GUEST SERVICES
- WAKE-UP CALLS WITH SNOOZE FEATURE
- GUEST VOICEMAIL TUTORIALS
- WAKE-UP CALLS CAN BE SET BY GUEST OR FRONT DESK STAFF
- VOICE MAILBOX CONFIGURED FOR GUEST AT CHECK-IN
- VOICEMAIL HOLDING BOX AT GUEST CHECK-OUT

FREE UP VALUABLE STAFF TIME

Easy-to-use voicemail eliminates the need for message taking and delivery, freeing up valuable staff time. Special instructions, work schedules and maintenance orders can all be communicated through InnLine™ voice messaging products. Property management system integration allows your computer system to integrate with voicemail features.

LOWER OPERATING EXPENSES

Automated Attendant transfers outside calls directly to departments or individuals, further reducing operator console traffic. While your guests will appreciate InnLine's benefits, you'll enjoy increased productivity and profitability.

IMPROVE CUSTOMER SERVICE

Automated guest services provides information to your guests at the touch of a button. Guests can get travel information, weather forecasts, road conditions, current time, room service or local food delivery, local information about restaurants, theaters, shopping and other attractions. Additionally, wake-up calls are guest-programmable and handled automatically by the system.

INNLINER IP™ VOICE MESSAGING SOLUTIONS

INNLINER IP™

- 8 to 64 ports
- Solid State Drive
- Rack-mountable 1U chassis
- Unlimited mailbox capacity
- SIP integration
- 6 physical com ports
- 1 standard set of custom recorded prompts

InnLine IP™ is a next-generation voicemail system employing Session Initiated Protocols (SIP) to reduce integration and hardware costs. No digital or analog cards are required. InnLine IP™ comes standard in a cutting-edge, industrial rack-mountable 1U chassis.

INNLINER IP ELITE™

- 8 to 64 ports
- Dual hot-swappable Solid State Drives
- Dual hot-swappable power supplies
- Rack-mountable 1U chassis
- Unlimited mailbox capacity
- SIP integration
- 9 physical com ports
- 1 standard set of custom recorded prompts

InnLine IP Elite has all the reliable features of InnLine IP, with the addition of hardware redundancy. This robust system is a must for large hotels, resorts and convention centers. Redundancy and backup capabilities are built in. These features are critical for larger properties.

Multi-tenanting (virtual instance) feature:

Using this method, one server (located at the property) may run several "virtual instances" of the InnLine IP voicemail application. Each instance would serve as a separate tenant within the property..

DMG Integration

Older "legacy" PBX that do not support native SIP, may integrate with InnLine IP or InnLine IP Elite using Dialogic Media gateways. The gateways come in 8 port increments, and can connect to a variety of legacy PBX's (such as Hitachi- HCX-5000 and older versions of Nortel, Avaya and Mitel.

ADD-ON MODULES

INNLINER CHARGE™

CALL ACCOUNTING MODULE Next-Generation Call Accounting for Hospitality

InnCharge™ seamlessly integrates with InnLine™ to provide a trouble-free call accounting system. You can simply connect through a web browser to view a host of reports, and even assign VIP pricing to a guest. Additionally, InnCharge's client software is easy to use, which makes changing call pricing a simple task.

KEY FEATURES:

- Access using easy-to-use web-based interface or front desk client software
- Seamless integration with InnLine IP™ means no integration or support challenges
- Flexible call pricing generates revenue
- Extensive reporting capabilities

PRIVATERLINER™

DID MODULE Dynamic DID for Guests

With PrivateLine™, you can ask guests if they would like their own direct incoming telephone number(s). Then, with the included label printer, guests receive business cards listing their personal numbers. Guests will enjoy the added convenience of a direct number to forward their mobile phones to.

KEY FEATURES:

- Up to 3 numbers per room
- Personal business cards listing assigned numbers
- Phone number usage reports
- Permanent phone number assignment for any extension
